## **Destiny Media Player PC/Windows**

When you are listening to music in one of our online radio stations and want to play the next one - or worse, you have no idea which station is currently playing - you can press the Next or Previous button. However, you might also want to skip to the next or previous song in the list of

---

available stations. This task can be easily accomplished by using the Next or Previous buttons, but there may be more to your liking. When you play a music file, you want to always return to the last radio station you played. Destiny Media Player solves this by allowing you to press the Next button, adjust the volume, and return to the previous station in the list of online radio stations. Or, you may prefer to return to the previous station by pressing the Previous button. With Destiny Media Player you can quickly navigate to the next and previous online radio station. Listen to music and music radio stations

1. Choose the format of audio files you want to play
